

**Automotive quality parts for
value-oriented repairs**

Who we are

We are an internationally networked company of RONIK Holding GmbH, which specializes in automotive quality parts for time-value repairs and has more than 5,000 items permanently available for you. With lean processes and state-of-the-art IT interfaces, we guarantee fast delivery times and constantly updated product data.

At NAP carPARTS you get:

- OEM quality vehicle parts
- Currently over 5,000 part numbers with constantly growing assortment
- Wide vehicle model coverage oriented to the European vehicle market
- European standard - certified according to ECE type approval 103R
- Overnight Express → Delivery before the start of work
- Dropshipping
- Product data according to TecDoc standard
- Connection to your inventory control system

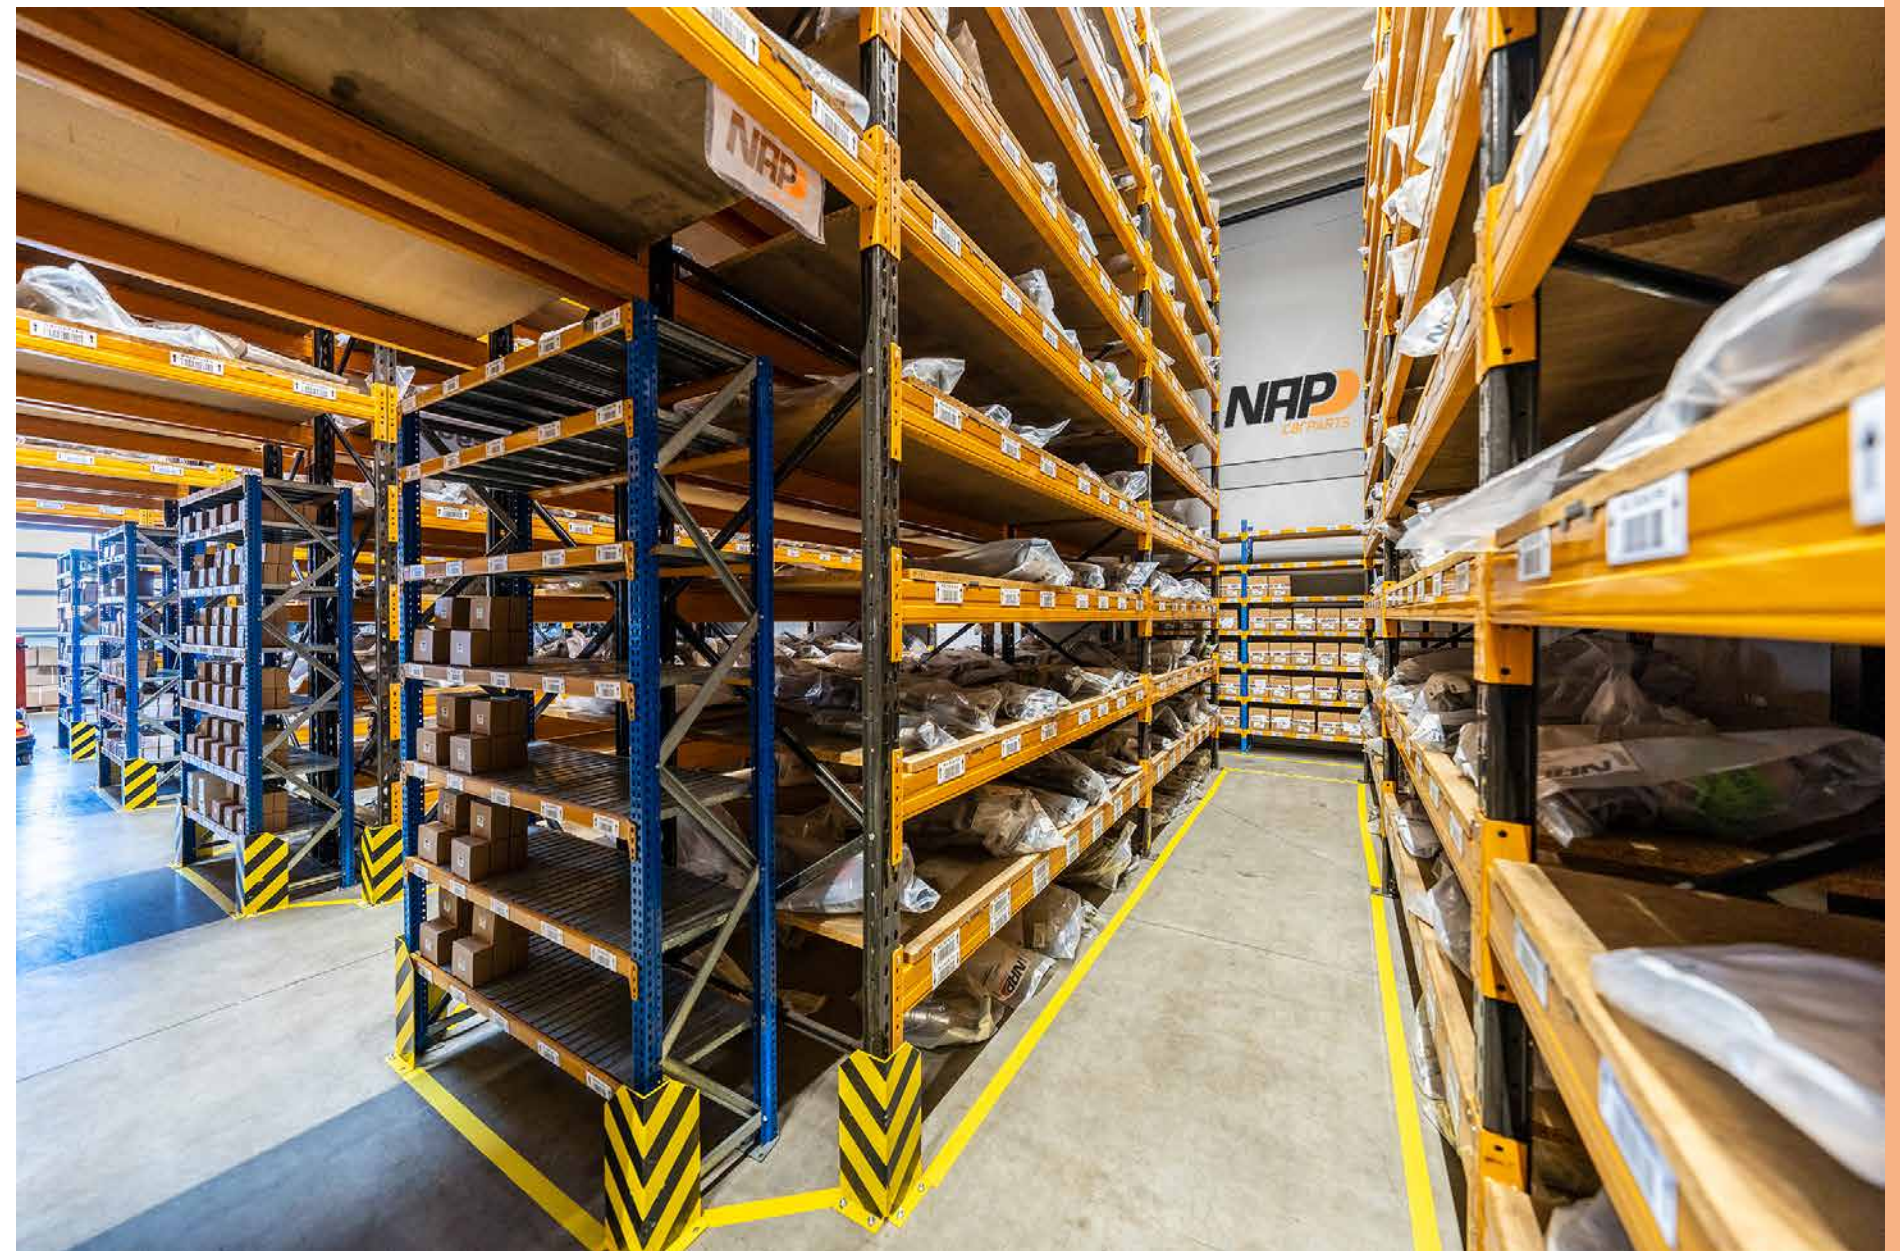

Listing of the NAP carPARTS assortment

Data quality is the basic prerequisite for optimal sales opportunities and smooth processes. You will receive a complete listing from us according to the TecDoc or DVSE standard catalog data, of course with the necessary cross-references and 360° product images.

In addition to the service of electronic product data preparation and product data maintenance, NAP carPARTS also offers you the connection to your merchandise management system via an API interface, to ensure maximum efficiency in sourcing.

Dropshipping

Dropshipping is our all-round carefree service for every retailer. On request, we will deliver directly to your customer without detours and in neutral packaging with your sender. Through efficient and precise logistics processes, you save the process costs, the risk of own warehousing and, above all, time.

We know what your customers want

Exhaust systems

Due to the introduction of the new test cycles of EURO 5, EURO 6 and the sensitive public discussion of exhaust gas values, the demand for high-quality spare parts for the exhaust gas purification system and the repair in line with the current value is increasing. With our constantly growing assortment you receive all parts of the exhaust gas cleaning from a hand.

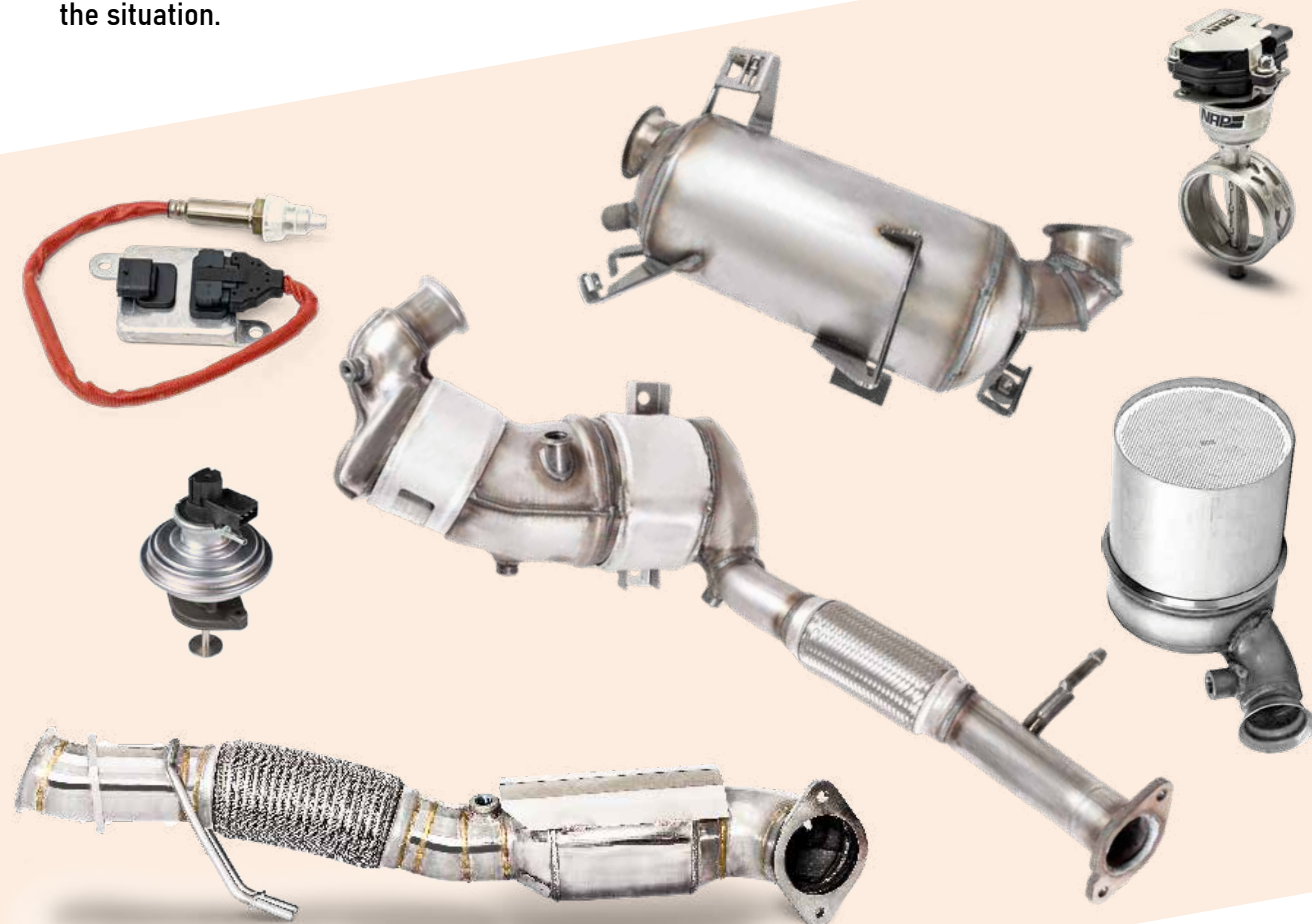

- Highest quality thanks to certified QM system of NAP Manufaktur GmbH
- Maximum emission absorption and high durability due to the use of high-quality materials and standardized production processes = low complaint rates

Our assortment

- | | | |
|-----------------------------|-----------------|------------------------|
| ■ Catalysts | ■ NOx sensors | ■ Lambda sensors |
| ■ Diesel particulate filter | ■ Exhaust pipes | ■ Universal components |
| ■ Temperature sensors | ■ EGR valves | |

„Fastmover“ not available?

We are a producer. If you are missing a „fast mover“ in our range, please contact us and we can quickly remedy the situation.

Vehicle customization

The mega trend of individualization has also arrived in the vehicle sector!

What was previously only offered by exclusive tuning workshops, is now with our certified add-on parts (incl. ABE, registration-free) a range expansion for every independent workshop.

- Performance exhaust systems
- Fitting rear skirts
- Tailpipes
- Mounting material

Guidance line

„With a wide range of all exhaust system components, you can promptly provide your customer with all the spare parts they need, from individual parts to complete systems.“

NAP management

Christian Lübke

CEO NAP carPARTS GmbH

- Dipl.-Ing. Mechanical Engineering
- Engineer and manager in the areas of development, production and sales
